

# CROUCHING TIGER HIDDEN DRAGON

THE FORGOTTEN POTENTIAL OF CRYPTO  
IN A POST-HUMAN SOFTWARE ENVIRONMENT

# REALA

CHRISTOPHER "OWEN" OWENS | 2026-02-26 | 5 MINUTE ⚡ TALK

- \* 10 YEARS AGO CRYPTO WAS THE BUZZ
- \* ALWAYS A FAN OF THE TECH, NOT HYPE
- \* GENERATIVE AI + CRYPTO SAFETY  
(WATERMARKING, DRM, ATTESTATION)

**REALA** ARTICLES SERVICES COMPARE PRICING ABOUT CONTACT

I recently took a Solidity bootcamp course with [Puerto Rico Blockchain Trade Association](#). For many non-techs, the crypto fad has died down in favor of AI. An interesting question that was posed was: How can crypto and AI work together?

## PRBTA Presents Crypto & AI

# Watermarking, Verifiable Safety, Attestation

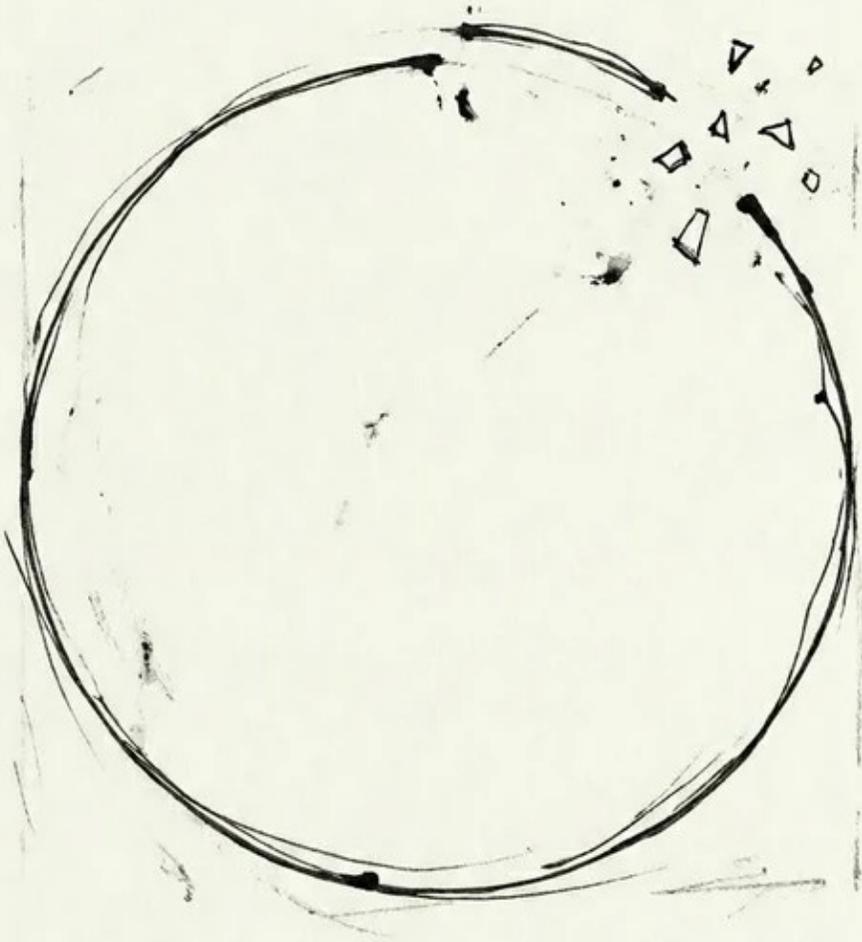

How can AI and crypto work together?

**REALA** **PRBTA** Puerto Rico Blockchain Trade Association

For anyone familiar with memecoins and NFTs, the obvious answer is generative assets. There have been a number of generative art NFTs using various algorithms as well as generative image tools like Midjourney or Stable Diffusion.
